

Food and Beverages

Contributing to a good product

Food and Beverages

Royal Haskoning is a provider of services in the food and beverage industry. We cover a wide range of the market, from wheat preservation and feed production to the production of beer or cheese. Food safety and hygiene is essential for our clients, so our specialist's knowledge and experience with the regulations of EHEDG, FDA, HACCP and GMP guidelines are incorporated into every project during design and construction.

In recent years Royal Haskoning has worked together with almost all main players in the international food and beverage sector. This results in depth knowledge of various production processes. This know-how, combined with our expert skills, enables us to deliver tailor-made solutions every time.

Our consultants and engineers can support you to identify and resolve problem areas.

In our multidisciplinary approach, the Project Manager acts as your single point of contact. He leads the team, co-ordinates the whole project, and ensures proper management in terms of time, cost, quality and safety.

Royal Haskoning can cover the whole project cycle from idea through to feasibility study, design, construction and training of personnel: a real partner for "Thinking in all dimensions".

Contribution to a good product

Royal Haskoning is an independent Engineering and Consultancy firm operating worldwide. Our 4000 staff have a wide range of knowledge and experience. Rooted in a technical background, our consulting services focus on the broad field of the interaction between people and their environment.

We are committed to working enthusiastically with our clients to achieve sustainable solutions in an increasingly complex society. The expertise and experience of our professionals in a variety of disciplines allows us to consider all the technical, logistical, legal, organizational, social, environmental and economic aspects of your

project, in order to develop sustainable and practical solutions.

Royal Haskoning has subsidiaries and partners throughout the world. Through our branch and project offices in Europe and overseas, we have access to all major international markets. This means that Royal Haskoning can offer multidisciplinary and integrated services locally, based on experience built globally. With our personal service in consultancy, we can contribute effectively to the successful planning, design, implementation, commissioning and operation of your projects and programmes.
